#### **Advancing Care Together**

[www.advancingcaretogether.org](http://www.advancingcaretogether.org)

This four-year program aims to discover practical models to integrate mental health, substance use, and primary care services for people whose health problems and health care needs span physical, emotional, and behavioral domains. ACT invites primary care practices and community mental health centers to learn what can be accomplished in real world settings to integrate care for children, adolescents and adults. To optimize learning, ACT has funded a portfolio of Colorado projects in diverse geographic areas and that employ a range of care delivery models.
